

Adobe Lightroom Classic (Mac) cheat sheet

Working with panels

Shortcuts for the Windows version of Lightroom are here.

Tab	Show/hide side panels
Shift + Tab	Show/hide all panels

Navigating modules

Cmd + Option + 2	Go to Develop module
------------------	----------------------

Changing views and screen modes

F	Cycle screen modes
---	--------------------

Using a secondary window

Note: The shortcuts for using the secondary window are the same as the equivalent shortcuts in the Library module, with the Shift key added.

Managing photos and catalogs

Del	Delete selected photo(s)
Cmd + Option + E	Open in other editor
Cmd + Shift + E	Export selected photo(s)
Cmd + Option + Shift + E	Export with previous settings

Comparing photos in the Library module

Esc	Switch to Grid view
Home	Go to beginning/end of Grid view

Rating and filtering photos

Shift + 0	Remove star rating and go to next photo
7	Assign a yellow label

Working with collections

B	Add to Quick Collection
Cmd + Option + Shift + C	Copy/paste metadata

Working in the Develop module

Cmd + U	Auto tone
Cmd + Shift + R	Reset all settings
Shift + T	Select the Guided Upright tool (also works in the Library module when a photo is selected)
Q	Select the Spot Removal tool
Option + Left click + Move the mouse	Temporarily switch from brush A or B to Eraser

Working in the Print module

Cmd + Shift + Right arrow	Go to last page
---------------------------	-----------------
