# XenCenter cheat sheet

## Menu navigation

| | |
|---|---|
| F10 or Alt | Toggle menu mode |
| Left arrow / Right arrow | Navigate across the menu bar |
| Up arrow / Down arrow | Select each menu command |
| Enter | Activate selected command |
| Esc | Cancel selected command and close the menu |

Use underlined letters to select specific menus and menu commands. By default, underlines will not be shown until you press F10 or Alt.

## General

| | |
|---|---|
| F1 | Display help |
| Alt + F4 | Exit XenCenter |
| Ctrl + Alt | Toggle between full screen console and window mode |
| Ctrl + B | Start the selected VM |
| Ctrl + C | Copy selected text to the clipboard |
| Ctrl + E | Shut down the selected VM |
| Ctrl + N | Open the New VM wizard |
| Ctrl + R | Reboot the selected VM |
| Ctrl + V | Paste the selected text from the clipboard |
| Ctrl + X | Cut selected text to clipboard |
| Ctrl + Y | Suspend or resume selected VM |
| Ctrl + Z | Undo last text edit |
