Converting

The following key combinations are defined but not activated. You can activate them in the "Keyboard" settings.

Win + Alt + U	The marked text will be converted to upper case letters
Win + Alt + L	The marked text will be converted to lower case letters
Win + Alt + P	Only the first letter of all words in the marked text will be upper case
Win + Alt + X	Convert marked or entered number from/to hexadecimal number

Win + Alt + T	Convert the marked text from/to hexadecimal series.
---------------	---

The key combinations are taken from the English-language terms: upper case, lower case and proper case.

Collections

Win + Alt + F1	Paste all collect entries at once
Win + Alt + F2	Manually start collection
Esc	End ongoing collection

Screenshots

To create a Screenshot:
