Company of Heroes 2 (classic controls) cheat sheet

Note about classic and grid controls

Company of Heroes 2 allows you to select between "Classic" and "Grid" hotkeys. The default option is classic hotkeys, and they are easy to remember because the key and the action is generally related to each other (e.g. press A to (A)ttack).

Grid hotkeys are organized closer, so you can use them easily only with your left hand.

General

PauseBreak	Pause the game
Esc or F10	Toggle in-game menu
