Fn + -	Color pulse, all 3 zones at a time: Red, Green, Blue, Yellow, Cyan, Purple, Orange, White
Fn + =	Rainbow wave

## Speed and direction modes

Dynamic lighting modes 9 through 12 can be further customized with various speed and / or direction modes.

Fn + Up arrow	(modes 9, 10, 11 and 12) Increase speed (Fast > Medium > Slow)
Fn + Down arrow	(modes 9, 10, 11 and 12) Increase speed (Slow > Medium > Fast)
Fn + Left arrow	(modes 11 and 12) Change direction from right to left
Fn + Right arrow	(modes 11 and 12) Change direction from left to right

## Customizing backlighting

Fn + F1	Zone 1 - Red / Green / Blue / Yellow / Cyan / Purple / Orange /
---------	---

	White / Off
Fn + F2	Zone 2 - Red / Green / Blue / Yellow / Cyan / Purple / Orange / White / Off
Fn + F3	Zone 3 - Red / Green / Blue / Yellow / Cyan / Purple / Orange / White / Off

## Factory reset

Fn + F4	Press and hold for 5 seconds. All three zones will blink rapidly two times in white color to confirm all lighting modes and macro assignments have been reset to defaults.
