

Logic Pro 10.6 cheat sheet

General

R	Record
Option + R	Record into cell
*	Record/record toggle
Cmd + .	Discard recording and return to last play position
Shift + R	(in Show Advanced Tools) capture as recording
Enter	Play
.	Pause
0	Stop
Space	Play or stop
Option + _	Preview selection-based processing
,	Rewind
V	Forward
Shift + ,	Fast rewind
Shift + .	Fast forward
Control + .	Forward by transient
Control + ,	Rewind by transient
Shift + Enter	(in Show Advanced Tools) Play from left window edge
Z	Go to position
Control + Option + Cmd + I	Set punch in locator by playhead
Control + Option + Shift + Cmd + I	Set punch in locator by rounded playhead
Control + Option + Cmd + O	Set punch out locator by playhead
Control + Option + Shift + Cmd + O	Set punch out locator point by rounded playhead
Cmd + U	Set locators by regions/events/marquee and enable cycle
U	(in Show Advanced Tools) set rounded locators by regions/events and enable cycle
Shift + Space	Play from selection
=	Swap left and right locator
Shift + Cmd + .	Move locators forward by cycle length
Shift + Cmd + ,	Move locators backwards by

cycle length

Control + Home	(in Show Advanced Tools) go to selection start
Control + End	(in Show Advanced Tools) go to selection end
Option + Enter	Go to end of last region
Enter	Go to beginning
Option + '	Create marker
Control + Option + ,	Create marker without rounding
Option + Shift + '	Create marker for selected regions
Option + Backspace	Delete marker
Control + Option + C	Set locators by marker and enable cycle
Control + Option + ,	Set locators by previous marker and enable cycle
Control + Option + .	Set locators by next marker and enable cycle
Option + ,	Go to previous marker and set locators
Option + .	Go to next marker and set locators
Option + /	Go to marker number
Shift + '	Rename marker
1	Go to marker number 1
2	Go to marker number 2
3	Go to marker number 3
4	Go to marker number 4
5	Go to marker number 5
6	Go to marker number 6
7	Go to marker number 7
8	Go to marker number 8
9	Go to marker number 9
Control + 0	Go to marker number 10
Control + 1	Go to marker number 11
Control + 2	Go to marker number 12
Control + 3	Go to marker number 13
Control + 4	Go to marker number 14
Control + 5	Go to marker number 15
Control + 6	Go to marker number 16

Control + 7	Go to marker number 17
Control + 8	Go to marker number 18
Control + 9	Go to marker number 19
C	Cycle mode
Option + Shift + Cmd + .	Double cycle/loop length
Option + Shift + Cmd + ,	Halve cycle/loop length
Control + Option + Cmd + P	(in Show Advanced Tools) Autopunch mode
/	Replace
Control + S	Solo mode
Option + S	Set solo lock mode
Option + Shift + S	Reselect solo-locked regions
Control + Option + Cmd + S	Clear/recall solo
Control + Shift + M	Mute off for all
Control + C	Cycle audition on/off
K	Midi/monitor metronome click
Shift + K	Count in
1	(in Show Advanced Tools) Recall screenset 1
2	(in Show Advanced Tools) Recall screenset 2
3	(in Show Advanced Tools) Recall screenset 3
4	(in Show Advanced Tools) Recall screenset 4
5	(in Show Advanced Tools) Recall screenset 5
6	(in Show Advanced Tools) Recall screenset 6
7	(in Show Advanced Tools) Recall screenset 7
8	(in Show Advanced Tools) Recall screenset 8
9	(in Show Advanced Tools) Recall screenset 9
Control + 1	(in Show Advanced Tools) Recall screenset 1x
Control + 2	(in Show Advanced Tools) Recall screenset 2x
Control + 3	(in Show Advanced Tools)

	Recall screenset 3x
Control + 4	(in Show Advanced Tools) Recall screenset 4x
Control + 5	(in Show Advanced Tools) Recall screenset 5x
Control + 6	(in Show Advanced Tools) Recall screenset 6x
Control + 7	(in Show Advanced Tools) Recall screenset 7x
Control + 8	(in Show Advanced Tools) Recall screenset 8x
Control + 9	(in Show Advanced Tools) Recall screenset 9x
Option + Shift + R	(in Show Advanced Tools) Region inspector float
Cmd + ,	Open preferences
Option + A	(in Show Advanced Tools) Open automation preferences
Cmd + 7	(in Show Advanced Tools) Open event list
Cmd + 1	Open main window
Cmd + 2	(in Show Advanced Tools) Open mixer
Cmd + 3	(in Show Advanced Tools) Open smart controls
Cmd + 5	(in Show Advanced Tools) Open score editor
Cmd + 9	(in Show Advanced Tools) Open transform
Cmd + 4	(in Show Advanced Tools) Open piano roll
Cmd + 0	(in Show Advanced Tools) Open environment
Cmd + 8	(in Show Advanced Tools) Open project audio
Control + Option + Enter	Note repeat
Control + Option + Backspace	Spot erase
Cmd + 6	(in Show Advanced Tools) open audio file editor
Cmd + K	Show/hide musical typing
Option + E	(in Show Advanced Tools) show/hide event float

X	Show/hide mixer
B	Show/hide smart controls
N	Show/hide score editor
Control + Option + Shift + S	(in Show Advanced Tools) Show/hide staff style window
Control + Option + Shift + I	(in Show Advanced Tools) Show/hide score sets window
P	Show/hide piano roll
Option + Cmd + K	(in Show Advanced Tools) Show/hide step input keyboard
O	Show/hide loop browser
Y	Show/hide library
W	(in Show Advanced Tools) Show/hide audio file editor
Shift + /	Show/hide quick help
Cmd + /	Show detailed help
Shift + W	(in Show Advanced Tools) Open in external sample editor
Option + Shift + T	(in Show Advanced Tools) Open tempo list
Option + K	(in Show Advanced Tools) Open key commands
Option + C	Show/hide colors
Control + Cmd + F	Enter/exit full screen
Option + Cmd + O	Open movie
Control + Cmd + O	Toggle current track automation off/read
Control + Cmd + A	Toggle current track automation latch/read
Control + Shift + Cmd + O	Set all tracks to automation off
Control + Shift + Cmd + R	Set all tracks to automation read
Control + Shift + Cmd + T	Set all tracks to automation touch
Control + Shift + Cmd + L	Set all tracks to automation latch
Control + Cmd + E	Track automation event list
Control + Option + Cmd + A	(in Show Advanced Tools) Toggle automation quick access
Shift + G	(in Show Advanced Tools) Enable/disable automation groups

Option + Shift + G	(in Show Advanced Tools) Open group settings
Cmd + W	Close window
Cmd + `	Cycle through windows
Shift + Cmd + `	Cycle through windows (counter clockwise)
Up arrow	Select previous track
Down arrow	Select next track
Shift + Cmd + N	(in Show Advanced Tools) New empty project
Cmd + N	New from template
Cmd + O	Open
Option + P	Project settings
Option + Cmd + W	Close project
Cmd + S	Save
Shift + Cmd + S	Save project as
Cmd + P	Print
Cmd + I	(in Show Advanced Tools) Import
Option + Cmd + E	Export selection as midi file
Cmd + E	(in Show Advanced Tools) Export track as audio file
Shift + Cmd + E	(in Show Advanced Tools) Export all tracks as audio files
Option + Cmd + M	Zoom window
Shift + Cmd + I	Import audio file
Shift +]	Next channel strip setting of focused track
Shift + [Previous channel strip setting of focused track
Option + Cmd + C	Copy channel strip setting
Option + Cmd + V	Paste channel strip setting
]	Next patch, plug-in setting or sampler instrument
[Previous patch, plug-in setting or sampler instrument
M	Toggle channel strip mute
S	Toggle channel strip solo
Control + I	Toggle channel strip input monitoring
Control + Shift + S	Toggle channel strip format (mono/stereo)

V	Show/hide all plug-in windows
Control + Option + M	Set nudge value to bar
Control + Option + B	Set nudge value to beat
Control + Option + D	Set nudge value to division
Control + Option + T	Set nudge value to tick
Control + Option + F	Set nudge value to smpte frame
Control + Option + H	Set nudge value to 0.5 smpte frame
Control + Option + S	Set nudge value to sample
Control + Option + 1	Set nudge value to 1 ms
Control + Option + 0	Set nudge value to 10 ms
Cmd + Enter	Stop all cells
Control + Option + Shift + T	Toggle activation of all tracks
