Preview window

These shortcuts are only active when a bounding box is selected in the preview window:

Aufwärtspfeil	Nudge source up
Pfeil nach unten	Nudge source down
Linker Pfeil	Nudge source left
Rechter Pfeil	Nudge source right
Option	Hold Option and drag the bounding box (edges turn green to indicate they are cropped): Crop a source
Shift	Shift tuşunu basılı tutun ve sınırlayıcı kutuyu sürükleyin: Stretch a source
Cmd	Hold Cmd while moving/adjusting bounding box:

Temporarily disable source snapping (if enabled)

These shortcuts are only active when the preview is set to fixed scaling (canvas or output):

Space + Links Klick + Bewegen Sie die Maus	Move preview
Space + Mausekranz nach oben und unten bewegen	Zoom preview
