eLux RP cheat sheet

General

Ctrl + Alt + Up arrow / Down arrow	Switch between open applications
Ctrl + Alt + Left arrow / Right arrow	Switch between desktops left/right
Ctrl + Win	Switch from other applications to eLux. The eLux taskbar/system bar with open applications is shown
Win + Alt + I	Open the device information
Ctrl + Alt + Home	Unlock the Configuration panel. Will request local device password
Ctrl + Alt + End	Lock the client screen

If user authentication is active, the user password is required for unlocking

Ctrl + Alt + F	Switch between consoles, if the Console switch option is enabled

The following consoles are available:

F1	eLux desktop
F4	Message console

Touchpad gestures

If your touchpad doesn't have "mouse buttons", these actions will emulate the buttons.

Left click: Tap one finger on the touchpad (single-tap)

Right click: Tap two fingers on the touchpad (single-tap)

Middle click: Tap three fingers on the touchpad (single-tap)

Move cursor: Drag your finger on the touchpad

Scroll: Slide two fingers at the same time
