Clanfolk (PC) cheat sheet

General

W/A/S/D	Pan the camera. ZQSD also works (azerty keyboards)
Arrow keys	Pan the camera
R	Rotate an object before placing it
V	Stop the selected entity (item, object, blueprint, animal or Clanfolk)
X	Break down the selected item or object (or dump contents in the case of bowls, jugs and buckets)
C	Crate the selected object and move it somewhere else. Right click if you just want to crate it
P	Priority Boost the selected entity
B	Go to Blueprint (make a copy of the selected item/object)

Skills menu

T	Move selected skill to the top
G	Disable selected skill
B	Move selected skill to the bottom
