

# Firefox cheat sheet

## Navigation

[shortcuts?filter=basic](#)

[Customize this PDF...](#)

Shift + Backspace	Forward
Ctrl + F5	Reload (override cache)

## Editing

Ctrl + Shift + V	Paste as plain text
------------------	---------------------

## Search

Ctrl + F	Find
Ctrl + G	Find again
Ctrl + K	Focus search bar

## Windows and tabs

Some of these shortcuts require the currently selected tab to be "in focus." Currently, the only way to do this is to select an adjacent object and "tab into" the current tab, for instance, by hitting Alt + D to select the address bar, and then Shift + Tab twice.

Ctrl + N	New window
Ctrl + Shift + P	New private window
Ctrl + Tab	Next tab

## Tools

Ctrl + Shift + A	Add-ons
Ctrl + Shift + I	Toggle developer tools
Ctrl + Shift + K	Web console
Ctrl + Shift + C	Inspector
Ctrl + Shift + Q	Network
Ctrl + Shift + M	Responsive Design View
Ctrl + U	Page source
Ctrl + Shift + J	Browser console

## Miscellaneous

Ctrl + Shift + S	Take screenshot
Ctrl + Alt + R	Toggle Reader Mode
F6	Move to next frame
