

Flyff cheat sheet

Mouse

Left click	Move your character, talk to an NPC, select a target or option, and pick up items
Wheel up and wheel down	Zoom in and out
Alt + Left click	Follow a character or do a command

General

F1	...to F10: Act as hotkeys for items, motions, and skills placed in your Quick Slot Bar. (In order to remove something from the bar, unlock the lock and drag it off the bar.)
C	Activate the skills you have assigned to your Action Slot (located bottom right)
J	Open the Duration window
Enter	Activate the Chat Box and enter any text you have typed. Note that if you press the arrow down key, you will access previous chats that you have imputed
Esc	Deselect a targeted player, monster, item, or NPC
*	Hide all currently open windows
0	Take a screenshot
1 or 2 or 4	Toggle skill bar

Movement

D	Standing: Rotates your character to the left. Walking/Running: Makes your character move to the left. Flying: Leans your character to the left
X	Switch between Run mode and Walk mode. During flight, it can be used to activate the AccelorFuel for your flying device
Tab	Toggle between valid aerial targets during flying combat

Scroll Lock

Places the camera into First Person mode. Pressing the button repeatedly will cause the camera to zoom in

Page Up

Focuses the camera on your character. Hold the key down to zoom in on your character further.

Character

E	Brings up your Personal Messenger window.
L	Brings up the Lord window. Note: Only the Lord can use this
