General

F1	…to F10: Act as hotkeys for items, motions, and skills placed in your Quick Slot Bar. (In order to remove something from the bar, unlock the lock and drag it off the bar.)
[0 - 9]	Act as hotkeys for items, motions, and skills placed in your Quick Slot Bar. (In order to remove something from the bar, unlock the lock and drag it off the bar.)
C	Activate the skills you have assigned to your Action Slot (located bottom right)
J	Open the Duration window
Enter	Activate the Chat Box and enter any text you have typed. Note that if you press the arrow down key, you will access previous chats that you have imputed
Esc	Deselect a targeted player, monster, item, or NPC
*	Hide all currently open windows
Print Screen	Make a screenshot of the current screen. The screenshot is saved in C:\Program Files\Webzen\Flyff\Capture by default
0	Take a screenshot
9	Save your current location
1 or 2 or 3 or 4	Toggle skill bar

Movement

W	Moves your character forward. Pressing W twice will cause your character to walk or run forward continuously. (Auto-run) While flying, pressing W will tilt your character forward
A	Rotates your character to the left. This key also applies while your character is in a forward motion, and will turn your character to the left as you hold the key
S	Moves your character backwards. While flying, pressing D will tilt your character backward
D	Standing: Rotates your character to the left. Walking/Running: Makes your character move to the left. Flying: Leans your character to the left
Alt + Left click	Follow a character or do a command
X	Switch between Run mode and Walk mode. During flight, it can be used to activate the AccelorFuel for your flying device
Z	Locks your camera onto an aerial target during flying combat
Tab	Toggle between valid aerial targets during flying combat
Space	Jump

Arrow keys	Control the direction and angle of the camera
Scroll Lock	Places the camera into First Person mode. Pressing the button repeatedly will cause the camera to zoom in
Page Up	Focuses the camera on your character. Hold the key down to zoom in on your character further.
Page Down	Pull the camera away from your character. Hold the key down to pull all the way back from your character
Ctrl + F	Toggle frame rate display

Character

Q	Brings up your Quest Diary window.
E	Brings up your Personal Messenger window.
T	Brings up Eldin's Jar option.
I	Brings up your Inventory window.
