GMMK (compact) cheat sheet

General

Fn + W or Fn + S	Adjust keyboard's LED backlight brightness
Fn + Z	Adjust LED backlight direction
Fn + X	Cycle through various backlight RGB colors (8 colors, more available via software)
Fn + A or Fn + D	Adjust RGB LED light speed during animations

Note: The keyboard LED (next to the Caps Lock key) will blink 5 times when the minimum or maximum value of the LED Speed or LED Brightness is reached.

Fn + R	Press for 10 seconds to reset keyboard to factory default settings
Fn + Win	Enable / Disable Windows key
Fn + Tab	Turn off all LED lights on the keyboard
Fn + Caps Lock	Swap functions of Fn and Caps Lock. Press again to revert

LED indicator (next to the Caps Lock key):

Red: Caps Lock is on

Blue: Windows key is locked

Green: Fn + Caps Lock swapped

Function and multimedia keys

Fn + Esc	`
Fn + 1	F1
