Pixelmon Mod cheat sheet

General

R	Send out/retrieve Pokémon
Up arrow / Down arrow or [or]	Change selected Pokémon in GUI
Right click	Mount Pokémon/Use item on Pokémon
V	(if an owned Pokémon is sent out) pressing this key while the cursor is over a wild Pokémon will cause the currently sent out Pokémon to chase down the wild Pokémon and engage in battle with it
G	Use currently selected Move Skill
B	Cycles through external moves if a Pokémon has more than one
I	Opens the Pokédex. If the player is looking at a Pokémon, the Pokédex will navigate directly to that Pokémon's entry, and will be registered as "seen" if it hasn't been seen or caught before
K	(when the player is holding an item) Opens up the item's page on this wiki or the Minecraft Wiki in the player's internet browser, depending on the item
Y	(when the player is looking at another player who is in a battle) Spectate the other player's battle
P	Open the Pixelmon config GUI
U	Open the player's Trainer Card

Battle

1	Execute the attack #1
2	Execute the attack #2
3	Execute the attack #3
4	Execute the attack #4
E	Open the Bag Menu

In the bag, press 1-4 to navigate to the revelant selection of the bag.

Press W and S to navigate up and down.

Press Esc or E to close the menu

Tab	Open the player's party
Esc	Run/Flee
W	(Battle log) Scroll up
S	(Battle log) Scroll down

Riding

There are two different sets of riding controls depending on the enablePointToSteer config option (enabled by default).

enablePointToSteer enabled:

W	Move forward
S	Move backwards
Move the mouse	Turn left/right
Space	Jump/Ascend
Left Shift	Dismount
C	Descend
H	Hover

enablePointToSteer disabled:

W	Move forward
S	Move backwards
A	Turn left
D	Turn right
Space	Jump/Ascend
Left Shift	Dismount
C	Descend

Flying

W	Tilt forward
S	Tilt backwards
A	Strafe left
D	Strafe right
Move the mouse	Turn left/right
Space	Take off/Accelerate
Left Ctrl	Decelerate
H	Hover in place
Left Shift	Dismount

While hovering:

A	Strafe left
D	Strafe right
Move the mouse	Turn left/right

Space	Ascend
Left Ctrl	Descend
H or W or S	Deactivate hovering
Left Shift	Dismount

Battle camera

W	Move camera up
S	Move camera down
A	Move camera left
D	Move camera right
Q	Zoom in
E	Zoom out
Right click + Move the mouse	Move camera
Move the mouse	Zoom camera

Default PC controls

W	Change the wallpaper of the box
S	Search the box for specific Pokémon
R	Rename the name of the box

Default quests controls

M	Cycles through all available quests
N	Opens the quest journal
