* New in iPadOS/iOS13

Some shortcuts, including Cmd + N to "Open split view" is removed in iPadOS. Cmd + N now opens a new tab like Cmd + T.

General iPad shortcuts

Cmd + H	Go to Home screen
Cmd + Space	Show or hide Search field
Cmd + Tab	Switch to the next most recently used app between open apps
Cmd + Shift + 3	Take a screenshot
Cmd + Shift + 4	Take a screenshot and open Markup to view or edit it
Cmd + Option + D	Show or hide the Dock

Keyboard shortcuts can be customized by going to Settings > Accessibility > Keyboards, tapping Full Keyboard Access to turn it on, then by tapping Commands and pressing a custom key combination.
