

Ipro Eclipse cheat sheet

Page and document navigation

Image tab

Page Up / Down	Scroll up or down within the page in the tab
----------------	--

Alt + Page Up / Down Go to previous or next page in the tab

Works whether focus is in the case table or the Image tab.

Case table

Page Up / Down	Scroll up or down through the current record set (one "screenful" at a time)
----------------	--

Ctrl + Page Up / Down Select previous or next document in the table

Tab	Move to next field in selected row (to the right or left)
-----	---

Shift + Tab Move to previous field in selected row (to the right or left)

Arrow keys	Move from a selected field in the direction of the arrow
------------	--

Record view (when a coding form is enabled for editing)

Tab	Move to next field in a coding form (top-to-bottom or bottom-to-top)
-----	--

Shift + Tab Move to previous field in a coding form (top-to-bottom or bottom-to-top)

Ctrl + Page Up / Down	Show previous or next document's fields
-----------------------	---

Note: Your administrator may define shortcuts (Alt+key) for fields in coding forms to allow you to navigate quickly to needed fields.

Editing fields in Record View

F2	Enable coding form for editing (or tagging). If form is already enabled, press F2 to exit editing mode
----	--

F6 Copy content of previously edited field into selected (same) field of another record. (If the field was not previously edited, no change is made.)

F7	Copy all previously edited fields from previous record to currently
----	---

selected record

Custom (Ctrl+): Your administrator may define shortcuts (Ctrl+key) to allow you to apply tags quickly. Check with your administrator.

Editing fields in Case Table

F2 or Double click Press F2 after clicking a field to enable fields for editing. Press F2 again to disable editing

F2 or Esc If editing is enabled, press F2 or Esc to disable editing

Note: To ensure your last change is implemented, use F2. Pressing Esc will disable editing but will not implement the last change.

F6 When field is enabled for editing, press F6 to copy the content of the field in the row above it into enabled field (field above cannot be blank)

F7 When a field is enabled for editing, press F7 to fill currently displayed (all) empty fields in the enabled field's row with the contents of the row above

Tab or Enter or Shift + Tab After editing a field, press Tab or Enter to complete the edit and navigate to the next field in the row and continue editing. Press Shift + Tab to complete the edit and navigate to the previous field

Ctrl + Up arrow / Down arrow After editing a field, complete the edit and navigate to the next (or previous) field in the row and continue editing. You can also press the Enter key

Ctrl + C Copy selected text

Ctrl + X Cut selected text

Ctrl + V Paste clipboard contents

Scanning

Alt + S Open a new scan session

Alt + O Open an existing scan session dialogue

Alt + Q After gaining the Commit Scanned Documents to Case

	privilege, open and perform the Statistical Quality Check process
