# Jagged Alliance 2 (version 1.13) cheat sheet

## Selecting Mercs and Squads

| F1 | … to F10: Selects merc / move screen to merc |
|---|---|
| / | Centre on currently selected merc |

## Map screen

| Shift | Hold Shift while selecting mercs to select a region of mercs |
|---|---|

## Tactical Screen - Movement/Stance/Actions

| Alt + Shift | ALT + SHIFT - Used for jumping over small obstacles. Hold ALT + SHIFT and point at a tile (2 or 3 tiles away from merc). Cursor will change to indicate jumping is possible. Useful for jumping over mines, from roof to roof or over another merc if he is prone |
|---|---|
| Left click | Look / Turn cursor. Change merc's facing / Raise weapon if looking at the same direction. Note that some bonuses like scope vision range bonus only apply when a weapon is raised |
| P or X | PRONE stance |
| Shift + J | Jumps through window (merc must be facing the window, and there must be a free tile on the other side of the window). Closed window works as well |
| X | On merc / NPC, exchanges position with character |
| Z | Activate / Disable STEALTH mode for selected merc(s) |
| Alt + Z | Activate / Disable STEALTH mode for the entire squad |
| . | Toggles between a gun's different scopes / sights / alternative weapon holding (if a gun has variable scope / sight attached) |
| Shift + R | Reload all weapons (in hand) of active squad from mercs' |

| | inventory in turn-based. For real-time, reloads all weapons and fills magazines in squad inventory from sector inventory (if available) first SHIFT + Q - Drop primary hand item to ground |
|---|---|
| Shift + B | Drops backpacks for all mercs in the current sector (NIV only) |
| Shift + A | Create ammo boxes using all ammo found in sector |
| Shift + F | Remove all removable attachments from items and unload all weapons in sector |

## Tactical Screen - Interface

| Del | Show COVER spots relative to seen enemies |
|---|---|

## Tactical Screen - Mouse commands

| Alt + Middle click | Changes firing mode (SINGLE / BURST / AUTO, same as 'B' hotkey) |
|---|---|

## Strategic Map - Sector Inventory

| Ctrl + Tab + Left click | Restrict item in towns from move item assignment |
|---|---|

## System Commands

| Alt + S | Quick Save |
|---|---|

## Alternate Mouse Commands (Optional)

Set ALTERNATE_MOUSE_COMMANDS to true in JA2_Options.ini (located in Data-1.13) to use these hotkeys. Keep in mind they'll change some of the default hotkeys.

## Mouse wheel
