Working with desktop

Ctrl + F12	Show Desktop

Changing Volume and Brightness

In addition to the standard keys, many computer keyboards and laptops nowadays have special keys or buttons to change the speaker volume, as well as the brightness of your monitor if applicable. If present, you can use these keys in the KDE Plasma Workspaces to perform those tasks.

Leaving your computer

Ctrl + Alt + L	Lock Screen
Ctrl + Alt + Shift + Page Down	Shut Down without confirmation
