Logic Pro 10.6 cheat sheet

General

R	Record
Option + R	Record into cell
*	Record/record toggle
Cmd + .	Discard recording and return to last play position
Shift + R	(in Show Advanced Tools) capture as recording
Enter	Play
.	Pause
0	Stop
Space	Play or stop
Option + _	Preview selection-based processing
,	Rewind
V	Forward
Shift + ,	Fast rewind
Shift + .	Fast forward
Control + .	Forward by transient
Control + ,	Rewind by transient
Shift + Enter	(in Show Advanced Tools) Play from left window edge
Z	Go to position
Control + Option + Cmd + I	Set punch in locator by playhead
Control + Option + Shift + Cmd + I	Set punch in locator by rounded playhead
Control + Option + Cmd + O	Set punch out locator by playhead
Control + Option + Shift + Cmd + O	Set punch out locator point by rounded playhead
Cmd + U	Set locators by regions/events/marquee and enable cycle
U	(in Show Advanced Tools) set rounded locators by regions/events and enable cycle
Shift + Space	Play from selection
=	Swap left and right locator
Shift + Cmd + .	Move locators forward by cycle length
Shift + Cmd + ,	Move locators backwards by cycle length
Control + Home	(in Show Advanced Tools) go to selection start
Control + End	(in Show Advanced Tools) go to selection end
Option + Enter	Go to end of last region
Enter	Go to beginning
Option + '	Create marker
Control + Option + '	Create marker without rounding
Option + Shift + '	Create marker for selected regions
Option + Backspace	Delete marker
Control + Option + C	Set locators by marker and enable cycle
Control + Option + ,	Set locators by previous marker and enable cycle
Control + Option + .	Set locators by next marker and enable cycle
Option + ,	Go to previous marker and set locators
Option + .	Go to next marker and set locators
Option + /	Go to marker number
Shift + '	Rename marker
1	Go to marker number 1
2	Go to marker number 2
3	Go to marker number 3
4	Go to marker number 4
5	Go to marker number 5
6	Go to marker number 6
7	Go to marker number 7
8	Go to marker number 8
9	Go to marker number 9
Control + 0	Go to marker number 10
Control + 1	Go to marker number 11
Control + 2	Go to marker number 12
Control + 3	Go to marker number 13
Control + 4	Go to marker number 14
Control + 5	Go to marker number 15
Control + 6	Go to marker number 16

Control + 7	Go to marker number 17		Recall screenset 3x
Control + 8	Go to marker number 18	Control + 4	(in Show Advanced Tools) Recall screenset 4x
Control + 9	Go to marker number 19	Control + 5	(in Show Advanced Tools) Recall screenset 5x
C	Cycle mode	Control + 6	(in Show Advanced Tools) Recall screenset 6x
Option + Shift + Cmd + .	Double cycle/loop length	Control + 7	(in Show Advanced Tools) Recall screenset 7x
Option + Shift + Cmd + ,	Halve cycle/loop length	Control + 8	(in Show Advanced Tools) Recall screenset 8x
Control + Option + Cmd + P	(in Show Advanced Tools) Autopunch mode	Control + 9	(in Show Advanced Tools) Recall screenset 9x
/	Replace	Option + Shift + R	(in Show Advanced Tools) Region inspector float
Control + S	Solo mode	Cmd + ,	Open preferences
Option + S	Set solo lock mode	Option + A	(in Show Advanced Tools) Open automation preferences
Option + Shift + S	Reselect solo-locked regions	Cmd + 7	(in Show Advanced Tools) Open event list
Control + Option + Cmd + S	Clear/recall solo	Cmd + 1	Open main window
Control + Shift + M	Mute off for all	Cmd + 2	(in Show Advanced Tools) Open mixer
Control + C	Cycle audition on/off	Cmd + 3	(in Show Advanced Tools) Open smart controls
K	Midi/monitor metronome click	Cmd + 5	(in Show Advanced Tools) Open score editor
Shift + K	Count in	Cmd + 9	(in Show Advanced Tools) Open transform
1	(in Show Advanced Tools) Recall screenset 1	Cmd + 4	(in Show Advanced Tools) Open piano roll
2	(in Show Advanced Tools) Recall screenset 2	Cmd + 0	(in Show Advanced Tools) Open environment
3	(in Show Advanced Tools) Recall screenset 3	Cmd + 8	(in Show Advanced Tools) Open project audio
4	(in Show Advanced Tools) Recall screenset 4	Control + Option + Enter	Note repeat
5	(in Show Advanced Tools) Recall screenset 5	Control + Option + Backspace	Spot erase
6	(in Show Advanced Tools) Recall screenset 6	Cmd + 6	(in Show Advanced Tools) open audio file editor
7	(in Show Advanced Tools) Recall screenset 7	Cmd + K	Show/hide musical typing
8	(in Show Advanced Tools) Recall screenset 8	Option + E	(in Show Advanced Tools) show/hide event float
9	(in Show Advanced Tools) Recall screenset 9		
Control + 1	(in Show Advanced Tools) Recall screenset 1x		
Control + 2	(in Show Advanced Tools) Recall screenset 2x		
Control + 3	(in Show Advanced Tools)		

X	Show/hide mixer		Option + Shift + G	(in Show Advanced Tools) Open group settings
B	Show/hide smart controls		Cmd + W	Close window
N	Show/hide score editor		Cmd + `	Cycle through windows
Control + Option + Shift + S	(in Show Advanced Tools) Show/hide staff style window		Shift + Cmd + `	Cycle through windows (counter clockwise)
Control + Option + Shift + I	(in Show Advanced Tools) Show/hide score sets window		Up arrow	Select previous track
P	Show/hide piano roll		Down arrow	Select next track
Option + Cmd + K	(in Show Advanced Tools) Show/hide step input keyboard		Shift + Cmd + N	(in Show Advanced Tools) New empty project
O	Show/hide loop browser		Cmd + N	New from template
Y	Show/hide library		Cmd + O	Open
W	(in Show Advanced Tools) Show/hide audio file editor		Option + P	Project settings
Shift + /	Show/hide quick help		Option + Cmd + W	Close project
Cmd + /	Show detailed help		Cmd + S	Save
Shift + W	(in Show Advanced Tools) Open in external sample editor		Shift + Cmd + S	Save project as
Option + Shift + T	(in Show Advanced Tools) Open tempo list		Cmd + P	Print
Option + K	(in Show Advanced Tools) Open key commands		Cmd + I	(in Show Advanced Tools) Import
Option + C	Show/hide colors		Option + Cmd + E	Export selection as midi file
Control + Cmd + F	Enter/exit full screen		Cmd + E	(in Show Advanced Tools) Export track as audio file
Option + Cmd + O	Open movie		Shift + Cmd + E	(in Show Advanced Tools) Export all tracks as audio files
Control + Cmd + O	Toggle current track automation off/read		Option + Cmd + M	Zoom window
Control + Cmd + A	Toggle current track automation latch/read		Shift + Cmd + I	Import audio file
Control + Shift + Cmd + O	Set all tracks to automation off		Shift +]	Next channel strip setting of focused track
Control + Shift + Cmd + R	Set all tracks to automation read		Shift + [	Previous channel strip setting of focused track
Control + Shift + Cmd + T	Set all tracks to automation touch		Option + Cmd + C	Copy channel strip setting
Control + Shift + Cmd + L	Set all tracks to automation latch		Option + Cmd + V	Paste channel strip setting
Control + Cmd + E	Track automation event list		]	Next patch, plug-in setting or sampler instrument
Control + Option + Cmd + A	(in Show Advanced Tools) Toggle automation quick access		[	Previous patch, plug-in setting or sampler instrument
Shift + G	(in Show Advanced Tools) Enable/disable automation groups		M	Toggle channel strip mute
			S	Toggle channel strip solo
			Control + I	Toggle channel strip input monitoring
			Control + Shift + S	Toggle channel strip format (mono/stereo)

V	Show/hide all plug-in windows
Control + Option + M	Set nudge value to bar
Control + Option + B	Set nudge value to beat
Control + Option + D	Set nudge value to division
Control + Option + T	Set nudge value to tick
Control + Option + F	Set nudge value to smpte frame
Control + Option + H	Set nudge value to 0.5 smpte frame
Control + Option + S	Set nudge value to sample
Control + Option + 1	Set nudge value to 1 ms
Control + Option + 0	Set nudge value to 10 ms
Cmd + Enter	Stop all cells
Control + Option + Shift + T	Toggle activation of all tracks
