Openbox cheat sheet

General

Alt + F4	Close the active window
Alt + Space	Show the client menu for the active window
Alt + Tab	Cycle between windows on the desktop
Alt + Shift + Tab	Cycle between windows on the desktop in reverse order
Ctrl + Alt + Tab	Cycle between panel and desktop windows on the desktop
Win + D	Hide all windows to show the desktop
Win + E	Run the Konqueror file manager (This is an example of how to run a program with a key binding)
Alt + Esc	Lower the active window behind other windows, and activate the last window that was in use
Win + F1	Go to the first desktop instantly
Win + F2	Go to the second desktop instantly
Win + F3	Go to the third desktop instantly
Win + F4	Go to the fourth desktop instantly
Ctrl + Alt + Left arrow	Open the desktop switching dialog, to go to the desktop to the left of the current one
Ctrl + Alt + Right arrow	Open the desktop switching dialog, to go to the desktop to the right of the current one
Ctrl + Alt + Up arrow	Open the desktop switching dialog, to go to the desktop above the current one (This will only be useful if you use a pager to set up a desktop layout with multiple rows)
Ctrl + Alt + Down arrow	Open the desktop switching dialog, to go to the desktop below the current one (This will only be useful if you use a pager to set up a desktop layout with multiple rows)
Shift + Alt + Left arrow	Open the desktop switching dialog, to go to the desktop to the left of the current one, and bring the active window with you
Shift + Alt + Right arrow	Open the desktop switching dialog, to go to the desktop to the right of the current one, and bring the active window with you
Shift + Alt + Up arrow	Open the desktop switching dialog, to go to the desktop above the current one, and bring the active window with you (This will only be useful if you use a pager to set up a desktop layout with multiple rows)
Shift + Alt + Down arrow	Open the desktop switching dialog, to go to the desktop below the current one, and bring the active window with you (This will only be useful if you use a pager to set up a desktop layout with multiple rows)
Alt + Left click	Move a window
Alt + Right click	Resize a window. The window is resized towards the edge that the mouse is nearest to. So use Alt + Right mouse button in the top right corner of a window to resize that corner
Alt + Wheel up and wheel down	Change desktops forward and backward
