Pharaoh cheat sheet

General

Н	Hide or display cliff terrain
M	When you select a monument to build, its image attaches to the cursor and shows you how much land the monument will occupy. Pressing "M" freezes the monument's footprint to that location so you can look around to see how it will fit. Press "M" again to resume normally, or click to build the monument there.
P	Pause the game (you can't build while paused)
R	When building a Gatehouse, Temple Complex, or Statue rotate the structure (to help them fit)
Esc	Exit the game
F7	Set to 640x480 resolution
F8	Set to 800x600 resolution
F9	Set to 1024x768 resolution
