Raspbian cheat sheet

General

Alt + F2	Run dialog
Ctrl + Esc	System menu
Alt + Space	Open program menu
Alt + Tab	Switch between programs
Alt + [A - Z]	(press underlined letter) Access dropdown
Alt + F11	Make active window fullscreen
Ctrl + Q	Close window
Ctrl + Alt + Backspace	Back to CLI

"Run" commands

Type "lxterminal" to get the terminal window open

Type "midori" for a web browser (use tab to move focus between links/buttons)

Type "idle" to get a python interpreter/dev environment up

Type "sudo shutdown 0" for a clean exit before yanking out the power cable

For more commands, take a look at here. There is also a good command cheatsheet in this page.
