

REAPER cheat sheet

Note for customized keyboard shortcuts

If you've made a lot of changes to REAPER's keyboard shortcuts, you might find it helpful to have a printed list to reference. REAPER actually has this feature built in with an auto-generated html list.

All you need to do is press Shift+F1 (+ function key maybe on Apple keyboards) which will create the list of all the currently assigned actions, and open the html file in your default browser. You can then save this as a pdf, or send it to your printer.

Mousewheel modifiers

Note: use Preferences/Editing Behavior/Mouse Modifiers to add or change any of the following mouse key modifiers.

Wheel up and wheel down	View: Zoom horizontally
Ctrl + Wheel up and wheel down	View: Zoom vertically
Alt + Wheel up and wheel down	View: Scroll horizontally
Ctrl + Alt + Wheel up and wheel down	View: Scroll vertically
Ctrl + Shift + Wheel up and wheel down	View: Adjust selected track heights

Mouse: Media item left click

Left click	Select item and move edit cursor
Shift + Left click	Add a range of items to selection, if already selected extend time selection
Ctrl + Left click	Toggle item selection
Shift + Ctrl + Left click	Select item and move edit cursor ignoring snap
Alt + Left click	Select item ignoring grouping
Ctrl + Alt + Left click	Add stretch marker

Mouse: Media item left drag

Left click + Move	Move item ignoring time
-------------------	-------------------------

the mouse	selection
Shift + Left click + Move the mouse	Move item ignoring snap and time selection
Ctrl + Left click + Move the mouse	Copy item
Shift + Ctrl + Left click + Move the mouse	Copy item ignoring snap
Alt + Left click + Move the mouse	Move item contents
Shift + Alt + Left click + Move the mouse	Adjust take pitch (fine)
Ctrl + Alt + Left click + Move the mouse	Render item to new file
Shift + Ctrl + Alt + Left click + Move the mouse	Copy item, pooling MIDI source data

Mouse: Media item double click

Double click	MIDI: open in editor, Subprojects: open project, Audio: show media item properties
Shift + Double click	Set time selection to item
Ctrl + Double click	Set loop points to item
Alt + Double click	Open media item in external editor
Shift + Alt + Double click	Show take list
Ctrl + Alt + Double click	Show take comps list

Mouse: Media item edge left drag

Left click + Move the mouse	Move edge (relative edge edit)
Shift + Left click + Move the mouse	Move edge ignoring snap (relative edge edit)
Ctrl + Left click + Move the mouse	Move edge ignoring selection/grouping
Shift + Ctrl + Left click + Move the mouse	Move edge ignoring snap and selection/grouping

mouse

Alt + Left click + Move the mouse	Stretch item (relative edge edit)
Shift + Alt + Left click + Move the mouse	Stretch item ignoring snap (relative edge edit)
Ctrl + Alt + Left click + Move the mouse	Stretch item ignoring selection/grouping
Shift + Ctrl + Alt + Left click + Move the mouse	Stretch item ignoring snap and selection/grouping

Mouse: Media item fade/autocrossfade left click

Ctrl + Left click	Set fade/crossfade to next shape
Shift + Ctrl + Left click	Set fade/crossfade to previous shape
Alt + Left click	Delete fade/crossfade

Mouse: Media item fade/autocrossfade left drag

Left click + Move the mouse	Move fade ignoring snap
Shift + Left click + Move the mouse	Move crossfade ignoring snap
Ctrl + Left click + Move the mouse	Move fade ignoring snap and selection/grouping
Shift + Ctrl + Left click + Move the mouse	Move crossfade ignoring snap and selection/grouping
Alt + Left click + Move the mouse	Move fade and stretch crossfaded items ignoring snap
Shift + Alt + Left click + Move the mouse	Move crossfade and stretch items ignoring snap
Ctrl + Alt + Left click + Move the mouse	Move fade ignoring snap (relative edge edit)
Shift + Ctrl + Alt + Left click + Move the mouse	Move crossfade and stretch items ignoring snap and selection/grouping

Mouse: Media item fade/autocrossfade double click

Double click	Open crossfade editor
--------------	-----------------------

Mouse: Media item fade intersection left click

Ctrl + Left click	Set both fades to next shape
Shift + Ctrl + Left click	Set both fades to previous shape

Mouse: Media item fade intersection left drag

Left click + Move the mouse	Adjust both fade curves horizontally
Shift + Left click + Move the mouse	Move both fades ignoring snap
Ctrl + Left click + Move the mouse	Adjust length of both fades preserving intersection ignoring snap
Shift + Ctrl + Left click + Move the mouse	Move both fades ignoring snap and selection/grouping
Alt + Left click + Move the mouse	Adjust both fade curves horizontally and vertically
Shift + Alt + Left click + Move the mouse	Move both fades and stretch items ignoring snap
Shift + Ctrl + Alt + Left click + Move the mouse	Move both fades and stretch items ignoring snap and selection/grouping

Mouse: Media item fade intersection double click

Double click	Open crossfade editor
Alt + Double click	Reset to default crossfade

Mouse: Media item stretch marker left drag

Left click + Move the mouse	Move stretch marker
-----------------------------	---------------------

Shift + Left click + Move the mouse	Move stretch marker ignoring snap
Ctrl + Left click + Move the mouse	Move stretch marker ignoring selection/grouping
Shift + Ctrl + Left click + Move the mouse	Move stretch marker ignoring snap and selection/grouping
Alt + Left click + Move the mouse	Move contents under stretch marker
Shift + Alt + Left click + Move the mouse	Move stretch marker pair
Ctrl + Alt + Left click + Move the mouse	Move contents under stretch marker ignoring selection/grouping
Shift + Ctrl + Alt + Left click + Move the mouse	Move stretch marker pair ignoring snap

Mouse: Media item stretch marker double click

Double click	Reset stretch marker rate to 1.0
Ctrl + Double click	Edit stretch marker rate

Mouse: Media item stretch marker rate left drag

Left click + Move the mouse	Edit stretch marker rate, ripple markers
Shift + Left click + Move the mouse	Edit stretch marker rate
Ctrl + Left click + Move the mouse	Edit stretch marker rate preserving marker positions (rate envelope mode)
Shift + Ctrl + Left click + Move the mouse	Edit stretch marker rate, move contents under marker, ripple markers
Alt + Left click + Move the mouse	Edit stretch marker rates on both sides, ripple markers
Shift + Alt + Left click + Move the mouse	Edit stretch marker rates on both sides
Ctrl + Alt + Left click + Move the mouse	Edit stretch marker rates on both sides preserving marker positions (rate envelope mode)

Shift + Ctrl + Alt + Left click + Move the mouse	Edit stretch marker rates on both sides, move contents under marker, ripple markers
--	---

Mouse: Envelope point left drag

Left click + Move the mouse	Move envelope point
Shift + Left click + Move the mouse	Move envelope point ignoring snap
Ctrl + Left click + Move the mouse	Freehand draw envelope ignoring snap
Shift + Ctrl + Left click + Move the mouse	Move envelope point on one axis only
Alt + Left click + Move the mouse	Delete envelope point
Ctrl + Alt + Left click + Move the mouse	Move envelope point vertically (fine)
Shift + Ctrl + Alt + Left click + Move the mouse	Copy envelope point ignoring snap

Mouse: Envelope point double click

Double click	Reset point to default value
Ctrl + Double click	Open envelope point editor

Mouse: Envelope segment left drag

Left click + Move the mouse	Move envelope segment ignoring time selection
Shift + Left click + Move the mouse	Insert envelope point, drag to move
Ctrl + Left click + Move the mouse	Freehand draw envelope ignoring snap
Shift + Ctrl + Left click + Move the mouse	Move envelope segment
Alt + Left click + Move the mouse	Edit envelope segment curvature
Shift + Alt + Left click + Move the mouse	Move envelope segment preserving edge points
Ctrl + Alt + Left click + Move the	Move envelope segment (fine)

mouse

Mouse: Envelope segment double click

Alt + Left click + Move the mouse	Reset envelope segment curvature
-----------------------------------	----------------------------------

Mouse: Envelope lane left drag

Shift + Left click + Move the mouse	Insert envelope point, drag to move
Ctrl + Left click + Move the mouse	Freehand draw envelope ignoring snap
Alt + Left click + Move the mouse	Draw a pooled copy of the selected automation item
Shift + Alt + Left click + Move the mouse	Draw a pooled copy of the selected automation item ignoring snap

Mouse: Automation item left drag

Left click + Move the mouse	Move automation item
Shift + Left click + Move the mouse	Move automation item ignoring snap
Ctrl + Left click + Move the mouse	Copy automation item
Shift + Ctrl + Left click + Move the mouse	Copy automation item ignoring snap
Alt + Left click + Move the mouse	Move automation item contents
Ctrl + Alt + Left click + Move the mouse	Copy and pool automation item
Shift + Ctrl + Alt + Left click + Move the mouse	Copy and pool automation item ignoring snap

Mouse: Automation item double click

Double click	Show automation item properties
Shift + Double click	Set time selection to item

Ctrl + Double click	Set loop points to item
Shift + Ctrl + Double click	Load automation item

Mouse: Automation item edge left drag

Left click + Move the mouse	Move automation item edge
Shift + Left click + Move the mouse	Move automation item edge ignoring snap
Ctrl + Left click + Move the mouse	Collect points into automation item
Shift + Ctrl	Collect points into automation item ignoring snap
Alt + Left click + Move the mouse	Stretch automation items relative to other selected items
Shift + Alt + Left click + Move the mouse	Stretch automation item relative to other selected items ignoring snap

Mouse: Track left click

Left click	Deselect all items and move edit cursor
Shift + Left click	Extend time selection
Ctrl + Left click	Deselect all items and move edit cursor ignoring snap
Shift + Ctrl + Left click	Extend time selection ignoring snap
Alt + Left click	Deselect all items
Ctrl + Alt + Left click	Clear time selection

Mouse: Track left drag

Left click + Move the mouse	Select time
Shift + Left click + Move the mouse	Move time selection
Ctrl + Left click + Move the mouse	Draw a copy of the selected media item
Shift + Ctrl + Left click + Move the mouse	Draw a copy of the selected media item ignoring snap
Ctrl + Alt + Left	Draw a copy of the selected

click + Move the mouse	media item, pooling MIDI source data
Shift + Ctrl + Alt + Left click + Move the mouse	Draw a copy of the selected media item ignoring snap, pooling MIDI source data

Mouse: Track control panel double click

Double click	Select all media items on track
Shift + Double click	Add all media items on track to selection
Ctrl + Double click	Toggle selection for all media items on track

Mouse: Mixer control panel double click

Double click	Zoom view to track
--------------	--------------------

Mouse: Envelope control panel double click

Double click	Select/unselect all envelope points
--------------	-------------------------------------

Mouse: Ruler left click

Left click	Move edit cursor
Shift + Left click	Extend loop points
Ctrl + Left click	Move edit cursor ignoring snap
Shift + Ctrl + Left click	Extend loop points ignoring snap
Alt + Left click	Seek playback without moving edit cursor
Ctrl + Alt + Left click	Clear loop points

Mouse: Ruler left drag

Left click + Move the mouse	Edit loop point
Shift + Left click + Move the mouse	Move loop points
Ctrl + Left click + Move the mouse	Edit loop point ignoring snap

Shift + Ctrl + Left click + Move the mouse	Move loop points ignoring snap
Alt + Left click + Move the mouse	Edit loop point and time selection together
Shift + Alt + Left click + Move the mouse	Move loop points and time selection together
Ctrl + Alt + Left click + Move the mouse	Edit loop point and time selection together ignoring snap
Shift + Ctrl + Alt + Left click + Move the mouse	Move loop points and time selection together ignoring snap

Mouse: Ruler double click

Double click	Set loop points to region
Ctrl + Double click	Set time selection to region
Alt + Double click	Set loop points and time selection to region

Mouse: Project marker/region lane left drag

Left click + Move the mouse	Hand scroll
Ctrl + Left click + Move the mouse	Hand scroll and horizontal zoom

Mouse: Project region left drag

Left click + Move the mouse	Move contents of project region
Shift + Left click + Move the mouse	Move contents of project region ignoring snap
Ctrl + Left click + Move the mouse	Copy contents of project region
Shift + Ctrl + Left click + Move the mouse	Copy contents of project region ignoring snap
Alt + Left click + Move the mouse	Move project region but not contents
Shift + Alt + Left click + Move the mouse	Move project region but not contents ignoring snap

Mouse: Project marker/region edge left drag

Left click + Move the mouse	Move project marker/region edge
Shift + Left click + Move the mouse	Move project marker/region edge ignoring snap

Mouse: Project tempo/time signature marker left drag

Left click + Move the mouse	Move project tempo/time signature marker
Shift + Left click + Move the mouse	Move project tempo/time signature marker ignoring snap
Ctrl + Left click + Move the mouse	Move project tempo/time signature marker, adjusting previous tempo
Ctrl + Alt + Left click + Move the mouse	Move project tempo/time signature marker, adjusting previous and current tempo

Mouse: Arrange view right drag

Right click + Move the mouse	Marquee select items
Shift + Right click + Move the mouse	Marquee add to item selection
Ctrl + Right click + Move the mouse	Select time
Alt + Right click + Move the mouse	Marquee select items and time
Shift + Alt + Right click + Move the mouse	Marquee select items and time ignoring snap
Ctrl + Alt + Right click + Move the mouse	Marquee zoom
Shift + Ctrl + Alt + Right click + Move the mouse	Hand scroll

Mouse: Arrange view middle click

Middle click	Move edit cursor ignoring snap
Ctrl + Middle click	Restore previous zoom level

Mouse: Arrange view middle drag

Middle click + Move the mouse	Jog audio
Shift + Middle click + Move the mouse	Hand scroll
Ctrl + Middle click + Move the mouse	Scrub audio
Alt + Middle click + Move the mouse	Jog audio (looped-segment mode)
Shift + Alt + Middle click + Move the mouse	Move edit cursor without scrub/jog
Ctrl + Alt + Middle click + Move the mouse	Scrub audio (looped-segment mode)

Mouse: Edit cursor handle left drag

Left click + Move the mouse	Jog audio
Ctrl + Left click + Move the mouse	Scrub audio
Alt + Left click + Move the mouse	Jog audio (looped-segment mode)
Ctrl + Alt + Left click + Move the mouse	Scrub audio (looped-segment mode)

Mouse: MIDI note left click

Left click	Select note
Shift + Left click	Add a range of notes to selection
Ctrl + Left click	Toggle note selection
Shift + Ctrl + Left click	Select note and move edit cursor ignoring snap
Alt + Left click	Select note and move edit cursor
Shift + Alt + Left click	Select all notes in measure
Ctrl + Alt + Left click	Select note and all later notes

Mouse: MIDI note left drag

Left click + Move the mouse	Move note
-----------------------------	-----------

Shift + Left click + Move the mouse	Move note ignoring snap
Ctrl + Left click + Move the mouse	Copy note
Shift + Ctrl + Left click + Move the mouse	Move note on one axis only
Alt + Left click + Move the mouse	Edit note velocity
Shift + Ctrl + Alt + Left click + Move the mouse	Move note vertically ignoring scale/key

Mouse: MIDI note double click

Double click	Erase note
Shift + Double click	Activate MIDI item (when clicking a note that is not in the active item)

Mouse: MIDI note edge left drag

Left click + Move the mouse	Move note edge
Shift + Left click + Move the mouse	Move note edge ignoring snap
Ctrl + Left click + Move the mouse	Move note edge ignoring selection
Shift + Ctrl + Left click + Move the mouse	Move note edge ignoring snap and selection
Alt + Left click + Move the mouse	Stretch notes
Shift + Alt + Left click + Move the mouse	Stretch notes ignoring snap

Mouse: MIDI CC event left click/drag

Left click + Move the mouse	Move CC event on one axis only
Shift + Left click + Move the mouse	Move CC event on one axis only ignoring snap
Ctrl + Left click + Move the mouse	Copy CC event

Shift + Ctrl + Left click + Move the mouse	Copy CC event ignoring snap
Alt + Left click + Move the mouse	Erase CC event

Mouse: MIDI CC event double click

Double click	Insert CC event
Shift + Double click	Insert CC event ignoring snap

Mouse: MIDI CC lane left drag

Double click	Edit selected CC events if any, otherwise draw/edit
Shift + Double click	Linear ramp CC events
Ctrl + Double click	Draw/edit CC events ignoring selection
Shift + Ctrl + Double click	Linear ramp CC events ignoring selection
Alt + Double click	Erase CC events

Mouse: MIDI CC lane double click

Double click	Insert CC event
Shift + Double click	Insert CC event ignoring snap

Mouse: MIDI source loop end marker left drag

Left click + Move the mouse	Edit MIDI source loop length
Shift + Left click + Move the mouse	Edit MIDI source loop length ignoring snap
Alt + Left click + Move the mouse	Stretch MIDI source loop length
Shift + Alt + Left click + Move the mouse	Stretch MIDI source loop length ignoring snap

Mouse: MIDI ruler left click

Left click	Move edit cursor
Shift + Left click	Select notes or CC in time

selection

Ctrl + Left click	Move edit cursor ignoring snap
Alt + Left click	Clear loop or time selection

Mouse: MIDI ruler left drag

Left click + Move the mouse	Edit loop point (ruler) or time selection (piano roll)
Shift + Left click + Move the mouse	Move loop points (ruler) or time selection (piano roll)
Ctrl + Left click + Move the mouse	Edit loop point (ruler) or time selection (piano roll) ignoring snap
Shift + Ctrl + Left click + Move the mouse	Move loop points (ruler) or time selection (piano roll) ignoring snap
Alt + Left click + Move the mouse	Edit loop point and time selection together
Shift + Alt + Left click + Move the mouse	Move loop points and time selection together
Ctrl + Alt + Left click + Move the mouse	Edit loop point and time selection together ignoring snap
Shift + Ctrl + Alt + Left click + Move the mouse	Move loop points and time selection together ignoring snap

Mouse: MIDI ruler double click

Double click	Zoom to selected notes/CC, or to project loop selection
--------------	---

Mouse: MIDI marker/region lanes left drag

Left click + Move the mouse	Hand scroll
Ctrl + Left click + Move the mouse	Hand scroll and horizontal zoom

Mouse: MIDI piano roll left click

Left click	Deselect all notes and move edit cursor
Ctrl + Left click	Deselect all notes and move edit cursor ignoring snap

Deselect all notes

Shift + Alt + Left click	Insert note ignoring snap
Shift + Ctrl + Alt + Left click	Insert note

Mouse: MIDI piano roll left drag

Left click + Move the mouse	Insert note, drag to extend or change pitch
Shift + Left click + Move the mouse	Insert note ignoring snap, drag to extend or change pitch
Ctrl + Left click + Move the mouse	Copy selected notes
Alt + Left click + Move the mouse	Erase notes
Shift + Alt + Left click + Move the mouse	Paint notes ignoring snap
Ctrl + Alt + Left click + Move the mouse	Paint a straight line of notes
Shift + Ctrl + Alt + Left click + Move the mouse	Paint notes and chords

Mouse: MIDI piano roll double click

Double click	Insert note
Shift + Double click	Insert note ignoring snap

Mouse: MIDI editor right drag

Right click + Move the mouse	Marquee select notes/CC
Shift + Right click + Move the mouse	Marquee add to notes/CC selection
Ctrl + Right click + Move the mouse	Marquee toggle note/CC selection
Alt + Right click + Move the mouse	Marquee select notes/CC and time
Shift + Alt + Right click + Move the mouse	Marquee select notes/CC and time ignoring snap
Ctrl + Alt + Right click + Move the mouse	Select notes touched while dragging

mouse

Shift + Ctrl + Alt +
Right click + Move
the mouse

Hand scroll

Section: Main

Note: Use the Action List to add or change any of the following action shortcuts.

Ctrl + F4	Close current project tab
Alt + Shift + C	Create measure from time selection (detect tempo)
Ctrl + Shift + Tab	Docker: Activate next tab
Ctrl + C	Edit: Copy items/tracks/envelope points (depending on focus) ignoring time selection
Ctrl + Shift + C	Edit: Copy items/tracks/envelope points (depending on focus) within time selection, if any (smart copy)
Ctrl + X	Edit: Cut items/tracks/envelope points (depending on focus) ignoring time selection
Ctrl + Shift + X	Edit: Cut items/tracks/envelope points (depending on focus) within time selection, if any (smart cut)
Ctrl + Shift + Z	Edit: Redo
Ctrl + Z	Edit: Undo
Ctrl + Shift + F	File: Batch file converter
Ctrl + N	File: New project
Ctrl + O	File: Open project
Alt + Enter	File: Project settings...
Ctrl + Q	File: Quit REAPER
Ctrl + Alt + R	File: Render project to disk...
Ctrl + Alt + B	File: Save live output to disk (bounce)...
Ctrl + Alt + Shift + S	File: Save new version of project (automatically increment project name)
Ctrl + S	File: Save project

Ctrl + Alt + S	File: Save project as...
Ctrl + F1	Help: About REAPER
Shift + F1	Help: Mouse modifier keys and action shortcuts
Insert	Insert media files...
Ctrl + Num 4	Item edit: Grow left edge of items
Alt + Num 6	Item edit: Grow right edge of items
Num 1	Item edit: Move contents of items left
Num 3	Item edit: Move contents of items right
Num 7	Item edit: Move items left, preserving timing of contents
Num 9	Item edit: Move items right, preserving timing of contents
Num 2	Item edit: Move items/envelope points down one track/a bit
Num 4	Item edit: Move items/envelope points left
Num 6	Item edit: Move items/envelope points right
Num 8	Item edit: Move items/envelope points up one track/a bit
Ctrl + Num 6	Item edit: Shrink left edge of items
Alt + Num 4	Item edit: Shrink right edge of items
N	Item edit: Toggle open/close nudge/set dialog
G	Item grouping: Group items
U	Item grouping: Remove items from group
Ctrl + G	Item grouping: Select all items in groups
Ctrl + [Item navigation: Move cursor left to edge of item
Ctrl +]	Item navigation: Move cursor right to edge of item
Ctrl + Tab	Item navigation: Move cursor to nearest transient in items

Tab	Item navigation: Move cursor to next transient in items	Ctrl + D	Item: Duplicate items
Shift + Tab	Item navigation: Move cursor to previous transient in items	Ctrl + Shift + D	Item: Duplicate selected area of items
Shift + 3	Item properties: Decrease item rate by ~0.6% (10 cents), clear 'preserve pitch'	D	Item: Dynamic split items...
Shift + 5	Item properties: Decrease item rate by ~6% (one semitone), clear 'preserve pitch'	Ctrl + Shift + G	Item: Glue items
Shift + 4	Item properties: Increase item rate by ~0.6% (10 cents), clear 'preserve pitch'	Shift + V	Item: Insert time on tracks and paste items
Shift + 6	Item properties: Increase item rate by ~6% (one semitone), clear 'preserve pitch'	E	Item: Open item inline editors
Ctrl + Shift + N	Item properties: Normalize items	Ctrl + Alt + E	Item: Open items in primary external editor
Shift + N	Item properties: Normalize multiple items to common gain	Ctrl + V	Item: Paste items/tracks
Shift + 7	Item properties: Pitch item down one cent	Shift + X	Item: Remove content (trim) behind items
Shift + 9	Item properties: Pitch item down one semitone	Shift + E	Item: Show FX chain for item take
Shift + 8	Item properties: Pitch item up one cent	Alt + Z	Item: Split at previous zero crossing
Shift + 0	Item properties: Pitch item up one semitone	S	Item: Split items at edit or play cursor
Ctrl + F2	Item properties: Show media item source properties	Ctrl + Shift + S	Item: Split items at edit or play cursor (ignoring grouping)
Alt + M	Item properties: Toggle items/tracks mute (depending on focus)	Alt + Shift + S	Item: Split items at play cursor
F2	Item properties: Toggle show media item/take properties	Shift + S	Item: Split items at time selection
Shift + W	Item: Add stretch marker at cursor	}	Loop points: Set end point
Ctrl + Alt + L	Item: Copy loop of selected area of audio items	{	Loop points: Set start point
X	Item: Crossfade items within time selection	Ctrl + 1	Markers: Add/move marker 1 to play/edit cursor
Ctrl + Del	Item: Cut selected area of items	Ctrl + 0	Markers: Add/move marker 10 to play/edit cursor
		Ctrl + 2	Markers: Add/move marker 2 to play/edit cursor
		Ctrl + 3	Markers: Add/move marker 3 to play/edit cursor
		Ctrl + 4	Markers: Add/move marker 4 to play/edit cursor
