

Redragon K580 RGB mechanical keyboard cheat sheet

General

Fn + Up arrow / Down arrow	Adjust key brightness
-------------------------------	-----------------------

Macro recording

1. Press Rec to start recording. The four leds will flash simultaneously)
2. Press one of the five G keys and it lights up (G1~G5).
3. Press keys to be recorded.
4. Press Rec once again to save the recording. The Rec also will light up.

For example, to record 123 on G1: Rec → G1 → 123 → Rec

Clear a recording

To clear a single recorded macro key: Press Rec+desired G key (G1-G5) you need to delete, then press Rec again. To delete all recorded macro keys(G1-G5): Press and hold Rec for 5 seconds, the light of Rec and G key goes off.

Two sides lighting

Fn + Pause	Switch 5 lighting modes on two sides
------------	--------------------------------------

Fn + Scroll Lock	Adjust the lighting speed on two sides
------------------	--
