Close tab (background tabs are shortly selected, then closed).

Middle click	Close tab (background tabs are closed without selecting them first).
--------------	--

Tabbed Info Panel

Double click	(click on splitter) Toggle Info Panel min/max size.
--------------	---

Ctrl + [1 - 9]

Select Tab 1, 2 etc.

Find Files Tab

Ctrl + Left click	(click Tab heads) Toggle search filter On/Off
-------------------	---

Copying Information to Clipboard

As rule of thumb, any text or icon you see anywhere on the info panel or the status bar can be copied to the clipboard by double-clicking it. Some special cases are extensions to this rule:

Double clicking on the Objects-section on the status bar (the left-most section) copies summary information on the current folder, e.g.:

D:\Download\, 145 object(s), Total: 13.29MB
(13,935,798 bytes)

Double clicking on a Key label on the Properties and Version tabs copies the key and the value. e.g.:

Created: Wednesday, January 12, 2000 20:57:21

Double clicking on a Value label on the Properties and Version tabs copies just the value. e.g.:

Wednesday, January 12, 2000 20:57:21

Image Preview

Mouse actions directly on the preview image:

Left click	Mouse Down Blow Up: Popup image in original size (aligned to the bottom-left). If image is larger than the main window move the mouse while holding it down to scroll the image in any direction
------------	--

	(or enable "Shrink to fit" in Configuration Preview).
--	---

Ctrl + Left click

Toggle zoom/original size.

Right click	Pops up the image preview context menu.
-------------	---

Audio/Video Preview

Mouse actions directly on the progress bar:

Left click	Go to mouse position.
------------	-----------------------

Right click

Start/Pause playing.

Shift + Left click	Go to beginning.
--------------------	------------------

Shift + Right click

Go to beginning and stop.

Ctrl + Left click	Set start of sub loop.
-------------------	------------------------

Ctrl + Right click

Set end of sub loop.

Ctrl + Alt + Left click	Reset sub loop.
----------------------------	-----------------

Floating Preview and Full Screen Preview

Right click	Show context menu.
-------------	--------------------

Ctrl + Left click +
Move the mouse
or Right click +
Move the mouse

Pan a cropped image.

Middle click	Close preview.
--------------	----------------

Wheel up

Previous Image.

Wheel down	Next Image.
------------	-------------

Ctrl + Wheel up

Zoom In.

Ctrl + Wheel down	Zoom Out.
-------------------	-----------

Ctrl + Shift +
Wheel up

Fine Zoom In.

Ctrl + Shift + Wheel down	Fine Zoom Out.
------------------------------	----------------
