Version control

Versions lets you create different versions of a specific block. They help you trying out different wording before settling.

Ctrl + ,	Add version
You can type in your new version. If you want to edit the existing version, copy it first and then paste it in after adding a version. If a block has versions, a small blue circle with a number appears at the beginning of the block.	
Ctrl + Shift + ,	Cycle versions to the right
Ctrl + Shift + .	Cycle versions to the left
Ctrl + .	Expand all versions
