

Syncfusion Bigdata Studio cheat sheet

General navigation

Alt + H	Navigate to HDFS tab
Alt + D	Navigate to Hadoop tab
Alt + S	Navigate to Sqoop tab
Alt + P	Navigate to Pig tab
Alt + V	Navigate to Hive tab
Alt + A	Navigate to Spark tab
Alt + B	Navigate to HBase tab

HDFS

Ctrl + N	New file or folder
Ctrl + U	Upload file or folder
Ctrl + M	Move file or folder
Ctrl + C	Copy file or folder
F2	Rename file or folder
Ctrl + R	Change Permission
Ctrl + D	Download file or folder
Ctrl + F	Begin search
Ctrl + H	Browse to Home in the file system
Enter	Move into Folder
Ctrl + F5	Refresh file system
Backspace	Move back from
Del	Delete selected file or folder

Hadoop

Ctrl + S	Save the script
Ctrl + Shift + E	Switch to Editor tab
Ctrl + Shift + C	Switch to Console tab
Ctrl + N	To select new script
Ctrl + O	To load a script
Ctrl + L	Clear console window
Ctrl + F8	Run all
Ctrl + R	Run selection
Del	Delete selected file or folder

Sqoop

Ctrl + F5	To execute job
Ctrl + N	Add new connection

Ctrl + J	Add new job
Ctrl + K	To kill the job

Pig

Ctrl + S	Save the script
Ctrl + F5	To execute the script
Ctrl + K	To kill the job
Ctrl + Shift + E	Switch to Editor tab
Ctrl + Shift + C	Switch to Console tab
Ctrl + Shift + H	Switch to History tab
Ctrl + Shift + L	Switch to Logs tab
Ctrl + Shift + R	Switch to Results tab
Ctrl + N	To select new script
Ctrl + O	To load a script
Ctrl + L	Clear console window
Ctrl + F8	Run all
Ctrl + R	Run selection
Del	Delete selected file or folder

Hive

Ctrl + S	Save the script
Ctrl + F5	To execute the script
Ctrl + K	To Kill the job
Ctrl + Shift + E	Switch to Editor tab
Ctrl + Shift + C	Switch to Console tab
Ctrl + Shift + H	Switch to History tab
Ctrl + Shift + L	Switch to Logs tab
Ctrl + Shift + R	Switch to Results tab
Ctrl + Shift + S	To select scripts tab in side bar
Ctrl + Shift + D	To select database tab in side bar
Ctrl + N	To select new script
Ctrl + O	To load a script
Ctrl + D	To create a new database
Ctrl + T	To create a new table
Ctrl + L	Clear console window
Ctrl + F8	Run all
Ctrl + R	Run selection
Del	Delete selected file or folder

Hive alter table:

Ctrl + L	To create the Alter table
Ctrl + R	To drop the table
Enter	To run the alter table command
Esc	To close the alter table form
Ctrl + Shift + R	Switch to Result tab
Ctrl + Shift + L	Switch to Log tab
Ctrl + Shift + E	Switch to Editor tab
Hive create table:	
Ctrl + D	To select Database from list
Enter	To run the create table command
Esc	To close the create table form

Spark

Ctrl + S	To save the script
Ctrl + F5	To execute the script
Ctrl + K	To kill the job
Ctrl + Shift + E	Switch to Editor tab
Ctrl + Shift + C	Switch to Console tab
Ctrl + Shift + H	Switch to History tab
Ctrl + Shift + L	Switch to Logs tab
Ctrl + Shift + R	Switch to Results tab
Ctrl + N	To select new script
Ctrl + O	To load a script
Ctrl + L	Clear console window
Ctrl + F8	Run all
Ctrl + R	Run selection
Del	Delete selected file or folder

HBase

Ctrl + S	To save the script
Ctrl + Shift + E	Switch to Editor tab
Ctrl + Shift + C	Switch to Console tab
Ctrl + Shift + L	Switch to Logs tab
Ctrl + Shift + R	Switch to Results tab
Ctrl + Shift + S	To select scripts tab in side bar
Ctrl + Shift + T	To select Table tab in side bar
Ctrl + N	To select new script

Ctrl + O	To load a script
Ctrl + T	To create a new table
Ctrl + L	Clear console window
Ctrl + F8	Run all
Ctrl + R	Run selection
Del	Delete selected file or folder

HBase alter table:

Ctrl + L	To create the Alter table
Ctrl + R	To drop the table
Enter	To run the alter table command
Esc	To close the alter table form
Ctrl + Shift + R	Switch to Result tab
Ctrl + Shift + L	Switch to Log tab
Ctrl + Shift + E	Switch to Editor tab

HBase create table:

Enter	To run the create table command
Esc	To close the create table form
