

Rust - Instruments cheat sheet

General

R	Lock out other controls (turns the keyboard into the instrument's corresponding notes)
---	--

If you're not using the piano, you probably won't need extra keys and just use numeric pad keys. They follow the C scale:

Num 1	C
Num 2	D
Num 3	E
Num 4	F
Num 5	G
Num 6	A
Num 7	B

Holding Numpad + key will turn the note into sharp.

Num + + Num 1	C#
Num + + Num 2	D#
Num + + Num 3	F
Num + + Num 4	F#
Num + + Num 5	G#
Num + + Num 6	A#
Num + + Num 7	C
Num Enter	Lower notes by one octave
