AutoDesk Civil 3D cheat sheet

Project Explorer

Z	Zoom to the selected Project Explorer object in the AutoCAD viewport
P	Pan to the selected Project Explorer object in the AutoCAD viewport
S	Select the selected Project Explorer object in the AutoCAD viewport
C	Clear (or de-select) the current selection in the AutoCAD viewport
A or E	Open the Civil 3D Properties dialog for any selected object
Ctrl	Temporarily highlight the selected Project Explorer object (or sub-object) in the AutoCAD viewport
Ctrl + A	Select all items in the list (for list views that support multiple item selections)
Ctrl + C	Copy selected list items to clipboard

More

Keyboard shortcuts for zoom/pan in AutoCAD also work in Civil 3D on many sub-object level.
